\$2.00 per year. 5 cents a copy.

Westerdale M.D. Council Meeting

At the council meeting of the Westerdale municipality held on Saturday the council approved of the proposition made by the Department of Public Works with regard to the Olds-Sundra road. The cost of construction of the road is not to exceed \$40,000, of which the department will pay 50 per cent. The municipality of Waterloo has agreed to contribute \$3,000, and the Town of Olds \$2,000, towards the cost of the road. The Westerdale municipality will assume the balance of the cost, which is spread over a period of ten years.

The contract has been let for the earth work on 12 miles of the road from the Dog Pound west, and the graveling will be done next summer.

It was reported that the program of grading roads was not completed, several miles of road in Divisions 5 and 6 being yet to be done when work had to be suspended on account of the frost.

Matters of relief and passing of pay sheets comprised the balance of the meeting.

Are You a Slave to Aching Feet?

Board of Trade Council Meeting

A meeting of the council of the Didsbury Board of Trade was held Friday evening, when the question of the graveling of the market roads was discussed. It was decided that the board use what influence it could towards this end, and a committee comprising Messrs. George Burns, Ed. Liesemer, H. Hoesgood, J. A. McGhee and R. Barrett, was appointed to interview the councils of the rural municipalities.

Rural telephone and the forming of a mutual company to take over the rural lines, came in for considerable discussion. It was pointed out that the more rural telephones installed made the telephone that much more valuable to the town subscriber. A committee of Dr. Clarke, Mr. W. McFarquhar and Mr. N. S. Clarke, was appointed to give any assistance it could to the rural telephone committees that have already been appointed.

A committee of Mr. W. McFarquhar, Dr. Clarke and W. G. Liesemer was appointed to interview the Town Council with respect to a rest room. It was felt that the establishment of a rest room in the town would be much appreciated by the country people and others visiting the town.

It was decided to hold meetings both east and west of town and committees were appointed. Messrs. Burns, McCoy and Ed. Liesemer will arrange for a meeting in the east, and Messrs. N. S. Clarke and H. Hoesgood for a meeting in the west.

A committee was appointed to make arrangements for the December general meeting of the Board of Trade, which will be held on the second Monday in December.

Since the meeting arrangements have been made to hold a meeting at Community Hall on Tuesday, November 6 at 8:30 p.m.

BIRTHS

At Didsbury General Hospital.

October 15: To Mr. and Mrs. Fred Admussen, Bergen, a son.

October 23: To Mr. and Mrs. G. Zimmerman, a daughter.

October 25: To Mr. and Mrs. John Wordie, a son.

October 30: To Mr. and Mrs. Ed Ford, a daughter.

October 30: To Mr. and Mrs. G. Lang of Olds, a daughter.

NOTICE.

The Local Elevator Men wish to announce that **AFTER WEDNESDAY, Nov. 14** all local elevators will be closed every Wednesday afternoon at 1 o'clock. Also on other holidays as taken by the local business houses.

New Evangelical Church Opening Exercises.

PRE-DEDICATION PROGRAM

Tuesday November 6th at 8 p.m.
Religious Picture, "The Stream of Life" by Rev. C. E. Rogers
Wednesday, November 7th, at 8 p.m.
Prayer Service, Address by Rev. W. Kreuger, District Supt.
Thursday, November 8th, at 8 p.m.
Musical Festival, an evening of music and song.
Friday, November 9th, at 7 p.m.
Fellowship Supper, served by the Ladies' Aid Society
Speakers, Bishop Praetorius, Rev. F. E. Hawley James and Rev. C. S. Finkbeiner
Saturday, November 10th at 8 p.m.
Youth Rally under the auspices of the Young People's Society.
Sunday, November 11th, at 2:30 p.m. Dedication Service

Board of Trade Meeting KNOX UNITED CHURCH NOTES

The Didsbury Board of Trade has arranged a meeting for the benefit of the farmers and their families to be held at the Mountain View Community Hall next Tuesday evening, November 6.

Mr. E. W. Brunsten, secretary of the provincial livestock marketing commission, will give an address on "Marketing," and Mr. Laurie Smith of Olds will speak on the work of a board of trade.

There will be a short musical program and refreshments will be served. Ladies are requested to bring sandwiches or cakes.
Messrs. Geo. Burns, Ed. Liesemer and W. J. McCoy are the committee in charge of the meeting, to which all farmers and their families are invited.

Curlers Organize for Coming Season

The organization meeting of the Curling Club was attended by a good representation of curlers on Monday evening.

From reports received the prospects for this season are very good and it is expected that the number of rinks will be equal or larger than those of last year. Several new recruits are expected and most of the old members will again be seen handling the broom this season.

The following officers were elected:

Hon. Patrons
Messrs. A. G. Studer and W. G. Liesemer
President, Mr. J. A. McGhee
Vice-Presidents
Messrs. G. Julien and D. Sinclair
Hon. Chaplain, Rev. A. J. Mitchell
Secretary, Mr. J. W. Halton
Ice committee: The president and vice-presidents.
Membership committee: Messrs. T. Johnson, W. McFarquhar and Dr. Clarke
Schedule committee: Mr. J. S. McCloy and Dr. H. C. Liesemer.
Messrs. C. E. Reiber, A. Bruno, A. McNaughton and W. G. Liesemer were appointed to interview the Rinks Ltd. regarding the rink for the season.
The fees were set at \$7.00 for the season.

Land Moving in Bergen District

There has been quite a movement in land in the Bergen and Elton districts during the last few weeks, and Mr. C. E. Reiber reports having sold a number of quarter-sections.

The settlers are coming mostly from the less favored parts of the province and are looking for cheap lands which will give them more certain prospects than prairies in the eastern parts of the province.

A New And Better Viewpoint

The recent annual convention of the Canadian Chambers of Commerce held at Winnipeg, was, it is generally recognized, one of the most important and in many respects the most significant gathering yet held by that body. It was not only one of the largest assemblages of outstanding men in the financial, industrial and commercial life of the Dominion yet convened, but it appears to have been animated by a new spirit based upon a fuller recognition of the responsibilities of what has been termed Big Business to the country as a whole and to the masses of producers, workers and consumers who, in the last analysis, are the backbone of the nation.

Important resolutions dealing with matters of far-reaching social and economic questions, and involving vital changes in national policies, were adopted, not the least significant of which was the declaration in favor of the negotiations of a reciprocity agreement with the United States in matters of trade. The adoption of this resolution in itself reveals the change in viewpoint and of the business world of Canada.

Significant, too, were some of the addresses delivered by men occupying high executive positions in the industrial world. For example, Mr. T. A. Russell, president of the Massey-Harris Co., told the convention that "the success of industry and farming were wrapped up together in Canada in a way which nothing could separate," and he gave facts and figures to prove it. As the purchasing power of the farmer declined, said Mr. Russell, so did the demand and output for farm implements. In the case of the Massey-Harris Co., he said, employment dropped from 4,900 in 1929 to an average of less than 1,200 for the years 1931, 1932 and 1933. "Not only has this proved a hardship for the men thrown out of employment through no fault of their own," he said, "but it has tremendously affected their purchasing power, their ability to pay taxes and, generally, to contribute their quota to Canadian prosperity. Likewise, the investor who has had no return on his investment has had to curtail his expenditures and has been a poor customer either for the farmer or for industry." Mr. Russell strongly urged the absolute necessity of complete and generous co-operation with the farming industry in order to bring about its re-establishment and promote its prosperity.

Then, spoke Mr. W. R. Campbell, president of the Ford Motor Co. of Canada, on behalf of all workers in industry. Space will not admit of any extended quotations from Mr. Campbell's address, but a few will suffice to indicate his position, and the attitude he urged all employers of labor to adopt in the interests of the workers, in their own interests, and in the interests of the country at large. Mr. Campbell said:

"As far as Canada is concerned there can be no normal times until all of our people who are capable of working have an opportunity for gainful employment. Free and unfettered by government aid. In dealing with the difficulties which must be corrected it is time that the very grave importance of our human relationships be recognized. I repeat—until every man in this country capable of working is able to find gainful employment the prime responsibility of industry is to the worker. The employee's interest must not be subordinated to the interest of the shareholder."

"Perhaps," continued Mr. Campbell, "these are rather amazing statements, but not until this condition is brought about can either capital and management or the worker prosper. Our primary duty, then, should be to make certain not only that the interest of labor in the benefits of industry be not subordinated to that of capital but also that labor be granted an equitable share of these benefits."

Suggesting the only possible way in which industry can be revitalized and employment provided, Mr. Campbell said: "What we must do is to start the ball rolling upward injecting more money into our economic structure at the bottom, through the wages of these industrial workers and profit by the steadily increasing circulation of this money upward through our whole business fabric. That is good business because it is profitable. Perhaps it means even the salvation of our industry itself as we know it today. Our problem at home, then, becomes one of finding greater markets for the products of domestic manufacture and this again devolves upon the problem of finding greater employment and providing increased purchasing power for our own workers. By increasing the earnings of the average worker, by paying him a greater return for his labor and by increasing the volume of his employment, by pumping into our economic structure more money at its base, we can get a start toward solution of our problem."

Having made a reference to the further development of export trade, Mr. Campbell concluded: "It is an inescapable fact that we have now entered upon an era of social readjustment in this world. In working out this readjustment so that the rights of both capital and labor shall be properly balanced, it devolves upon capital to take the initiative with the welfare of the whole nation always in mind. Capital must do this, because capital has the imagination, the training and the ability to assume leadership. Up to this point, balance is struck and until this country has been able to lift itself by its own courage and its own ability back to normal times, it is imperative that capital defer profits, defer its claim to a return upon invested wealth, in order to provide all of our people able to work with adequate employment at such a return as to enable them to live in accordance with desirable standards with the caliber of Anglo-Saxon peoples."

Vancouver Is Likened

To Constantinople

Should Greatly Aid Modern World States Lord Tomlin

Vancouver, with its natural advantages and geographical position, should be to the modern world what Constantinople was to the ancient world, Lord Tomlin of Ash, member of the judicial committee of the privy council, declared in an address to the Canadian Club at Vancouver.

Lord Tomlin said that Vancouver with its marvellous harbor and a network of railways behind it should be vastly interested in the solution of the world depression. Because, he said, Vancouver should logically hold Asia commercially in its fee.

LOST 10 LBS. IN TWO MONTHS

Not too Old to Reduce at 50

Here is a letter which proves that there is no necessity to tolerate excessive fatness, even at the age of 50.

"I was becoming too fat after reaching 50, and had attacks of rheumatism and indigestion. I took ordinary pills and other medicines, but they did not do any permanent good. Then I commenced taking Kruschen. I soon began to feel different—brighter, stronger, had more energy, no rheumatism, and to my surprise, after two months I lost 10 lbs. in weight, although I was eating much more, as digestion fullness had nearly left me."—W. H. G.

The numerous vital salts in Kruschen stimulate and tune up the bodily functions from a number of angles. Your stomach, liver, and kidneys all feel the immediate benefit. Your blood is cleared of impurities and becomes invigorated and refreshed. You forget indigestion, rheumatism, and depression in a new and unaccustomed feeling of physical and mental exhilaration.

Upward of 12,000,000 in Great Britain are insured against unemployment, and 17,000,000 against sickness, maternity, invalidism, and old age.

How are Your Nerves?

Mrs. R. Walden of Hamilton, Ont., said: "I was in great distress in the spring of 1932. I had a nervous headache, could not sleep, and was unable to do my work. I took a bottle of Dr. Foster's Extract of Wild Strawberry and after a few days I was able to do my work and sleep peacefully."

Write to Dr. Foster's, Chicago, Buffalo, N.Y., for free medical advice.

Another Wheat Exporter

Report That France Has Joined The Banks Of Exporters

The press report that France has left the ranks of wheat importing countries to join those of exporters is of considerable importance to Canada, in that still another competitor is added to the list. Prior to 1929, France did not produce sufficient wheat to meet her domestic requirements, except in years when exceptionally large crops were harvested. Large crops were grown in that country in 1929, 1932, and again in 1933, so that a surplus of wheat has been built up. In pre-war years France produced very large crops. The 1890 crop amounted to 330 million bushels, or equivalent to the production of 1932. In the five-year period from 1926 to 1932, production averaged 317 million bushels per annum. From 1928 to 1932 it was 290 million bushels or about 27 million bushels under the pre-war average. France has not reached her pre-war average average of wheat, which amounted to 365 million acres. The 1933 average was 13,508,000 and it has not changed materially since 1929.

India Grateful For Help

Grateful thanks on behalf of all India for the world-wide contributions to the earthquake fund were announced by the Earl of Willington, viceroy of India, when he declared the fund would close Oct. 1. A sum of \$2,225,000 has been contributed.

His: "I hope you'll dance with me tonight."

Her: "Oh, certainly. I hope you don't think I came down here merely for pleasure."

Stately Wedding

Prince Of Wales Expected To Be Best Man At Marriage Of Prince George And Princess Marina

The world's best-known bachelor, the Prince of Wales, is expected to be the best man at the stately wedding in Westminster Abbey of Prince George and Princess Marina of Greece. The date was announced as Nov. 29.

Little Princess Elizabeth, niece of George, will be a bridesmaid. The date was chosen after long discussions at Balmoral castle, Scotland, in which the king and queen, Marina's parents, Prince and Princess Nicolas of Greece, the Archbishop of Canterbury and the betrothed couple themselves participated.

It was expected the service would be performed by the Archbishops of Canterbury and York. The great ceremony in the abbey will be followed by a short service according to the rites of the Greek Orthodox church, in a room in Buckingham palace.

Their Majesties will drive to the abbey in full state. Prince George will drive separately with the Prince of Wales, while Marina will be in a third procession with her parents.

Must Be Registered

After January 1, 1935, any person found to be in possession of a pistol or revolver when its ownership has not been recorded with the police authorities will be liable to a fine of \$50 or 30 days in jail, or both. This amendment to the Criminal Code was passed at the last session of parliament and it is being proclaimed in the Canada Gazette.

The whale, in quest of food, goes down to the very depths of the ocean.

A Californian used only 13 words to win his \$10,000 estate to his wife.

BABY AILMENTS Relieved!

"Baby's Own Tablets have been the only medicine my four children have ever had. In no single instance has it been necessary to consult our doctor." So writes Mrs. Harry Edgar, Cumberland Bay, N.S. When the baby or young child loses appetite, is sleepless or restless, has coated tongue, colic, indigestion, cold or diarrhoea or is teething... give Baby's Own Tablets for safe, quick relief. Price 50¢ at all drug stores. 105

Dr. Williams' BABY'S OWN TABLETS

London, England, has 74 municipal hospitals with a total of 39,000 beds.

Rheumatism is caused by failure of kidneys to remove uric acid poisons from the blood. Gin Pills relieve by neutralizing this acid and restoring the kidneys to normal action—50¢ a box at all druggists.

MADE-IN-CANADA GOODS

Plans For Producing Valuable By-Products From Wheat Surplus Are Being Considered

Plans for producing valuable by-products from Canada's wheat surplus are being earnestly considered by a scientist at the Canadian Paper and Pulp Research Institute at McGill University.

Dr. W. Boyd Campbell, consulting physical chemist to the forest products laboratories, said that in China by an ingenious method scientists had succeeded in producing a valuable substance known as monosodium glutamate from wheat and added the surface of the possibilities of converting wheat into more costly products had only been scratched.

"If the Dominion," he said, "were to spend a small fraction of the money it has spent on providing transportation and handling facilities for the Dominion's wheat crop on research for new outlets and new uses of wheat, I believe the wheat surplus would in time become a forgotten bogey. I would suggest the Dominion government include in the budget, as a start in the right direction, the sum of \$500,000 to be used in this research over a period of five years."

The monosodium glutamate being made in China, of which China has sold between \$1,000,000 and \$2,000,000 worth annually, was until recently a rare chemical. It is used in China and Japan much the same as sugar and salt are used here.

Canadian wheat, with its comparatively high content of protein, is the best wheat for manufacture of this chemical, the scientist said.

Wheat worth two cents a pound was thus transformed into a substance worth from \$2 to \$3 per pound.

Laborers Will Occupy Historic Old Cottage

Home Of Anne Boleyn Bought By Henry Ford

The only home Anne Boleyn ever owned—a cottage near Chelmsford, England—has been bought by Henry Ford.

He is spending \$1,250 on having it rebuilt as it was 400 years ago, when King Henry came down from London to see his sweetheart who changed the course of English history.

Then it will be divided into seven cottages, to be occupied by laborers on Mr. Ford's farm. One of Mr. Ford's farm workers lives there now.

Bula's Lodge, Anne's surname was often spelled Bullen, stands back in a field behind a tangle of country lanes.

It was here, then one day's march, now an hour's ride, from London, that the Crusaders of the middle ages pitched their first camp on their way to the Holy Land.

And it was here that M. Livermore, a south country shepherd, brought his flock to graze six years ago. Down below, in the cellar, he found an underground passage leading to the castle across the fields. It was along this dark passage that Henry came to visit pretty Anne Boleyn. Today the castle is a girls' school. Mr. Livermore gave up his flock to work for Mr. Ford.

Electric Eye Lights City

Turns Illumination On Each Night At Proper Time

Experiments in connection with long-distance control of street lighting systems have been conducted by the Stockholm Electric Light and Power Company of Stockholm, Sweden, and satisfactory results obtained. A photoelectric cell, which is affected by light, announces the time for switching the street lighting system on and off. The "electric eye" gives the alarm irrespective of the time of day or night when the switch should be thrown on or out.

The only plausible reason for the grapefruit's name is that the fruits grow in clusters like giant bunches of grapes.

Annual world production of silver is about 250,000 ounces, the bulk of which is used by the chemical industry.

W. N. U. 2066

Nothing More Unsightly

Tattered Billboards Are A Blot On Any Road

Alderman Allan Towe, of London, may have been joking when he brought the matter up, but we quite agree with him when he protests that circuses should be made to tear down or cover up their billboards after the show is over. The same thing should be done in the case of political candidates and others who make use of this medium of reaching the public. We can't think of anything more unsightly than tattered billboards telling of an event that is "dead and buried." Border Cities Star.

By Ruth Rogers

NEW AND LOVELY FALL MODEL THAT BUTTONS VIOLENTLY RIGHT DOWN THE BACK

You know that Paris is using yards and yards of rayon novelties that have the appearance of woolen, for fall dresses.

And here's a delightfully smart example, and extremely easy to copy it exactly.

It is a watermelon (an effervescent rayon) with painted white flecks. The deep yoke and belt are of plain dull beguiling silk in toning watermelon shade. The buttons are black bone.

It's so unusual, and high priced looking, you'll just love it.

Back crepe novelties would also be attractive for it with the belt of self-fabric. Make the yoke of black dull black satin. Have the buttons covered with the satin. Carried out in black satin, it's also exceedingly smart.

Style No. 500 is designed for sizes 14, 16, 18 years, 36, 38 and 40 inch bust. Size 16 requires 3 1/2 yards 29-inch material with 3 1/2 yard 39-inch contrasting.

Price of pattern 20 cents in stamps or coin order is preferred. Wrap can carefully.

Livestock Production In Canada

Increase In Exports To United Kingdom Is Shown

The fact that every province in Canada is well adapted to the production of livestock gives this industry a wide basis across the Dominion. Canadians are generous meat eaters, consuming in 1933 an average per person of 74 pounds of pork, 56 pounds of beef, 10 pounds of poultry and 6 pounds of mutton and lamb. Each Canadian on the average, supplements these rations with 30 pounds of butter, about 3.5 pounds of cheese, and more than 21 dozen eggs. To supply the home market is therefore a large order for the Canadian livestock, dairy and poultry industries, and considerable contributions are also made to foreign trade.

During 1933 there was an increase in exports of live cattle to the United Kingdom, the total for the year being 50,317 head compared with 16,568 the previous year. About 10,000 head of cattle were exported to other countries. Exports of beef in 1932 amounted to over 10 million pounds compared with about 12 million in the previous year, and exports of pork jumped from 16 million to 70 million pounds.

The estimated number of meat and dairy animals in Canada as at June, 1933, was: Milch cows, 3,604,000; other cattle, 5,182,000; sheep 3,383,000; swine, 3,807,740. All classes of poultry numbered over 50,000,000. The gross agricultural wealth of Canada in 1933 was estimated at \$5,250,944,000 of which \$861,320,000 was represented by livestock and \$23,160,000 by poultry on farms.

It is estimated that at least 3,000 lambs weekly are required to supply the retail butcher trade at Montreal. The supply is short of the demand.

More than 1,000 Japanese ships have been equipped with radio telegraph equipment.

Outbreak Of Pale Western Cutworms Of Unusual Severity Forecast After Annual Survey

Should Have Advertised

British Honduras Neglected Publicity Campaign For Chet Product

In this age when so much depends on international trade, even a sharp decline in the use of chewing gum can financially embarrass everybody and throw out of kilter the occupations of a "tiny nation."

For a number of years the people of British Honduras have been subsidizing mainly upon the proceeds of the sale of chicle, the raw material of which chewing gum is made. When the depression started people began cutting down on things that weren't absolutely necessary. Chewing gum came under that category. Consequently the exports of chicle dropped and that colony is reported to be facing a financial crisis due to the loss of trade.

Now the citizens of British Honduras must do something else to keep the wolf from the door. They have decided to develop their banana, citrus fruit, and hardwood exports in order to avoid bankruptcy.

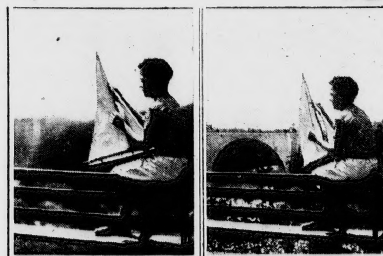

Apparently the British Honduras are not resourceful enough. When they noticed that the exports of chicle were on the down grade they should have staged publicity stunts to boost their business. For example, contrast to see who can stretch gum the farthest and who can chew the biggest would no doubt increase the sale of gum and help the chicle trade. Perhaps it is not yet too late to try the new suggested stunt.

Brookville Recorder and Times.

A man may not be too old to learn but too old to realize it.

The SNAPSHOT GUILD

THE "WHY" OF LENS STOPS

Two pictures, of the same subject and setting; one made with the lens wide open and the other with the lens drastically "stopped down." Note that there is no detail at all in the background of the snap made with the lens open, while the other shows the distant bridge very well. If it's detail you want, cut down the lens opening!

PRACTICALLY all cameras, with the exception of a few extremely simple models, have some means of varying the amount of light passing through the lens. Why?

Well, why do you tend to squint in bright sunlight? Simply because there is so much light in the open sun that, unless you squint, your eyes cannot distinguish details; in the dark your eyes dilated in order to take advantage of every available ray of light.

Cameras and eyes are much alike. Unless you control the amount of light entering the camera lens, you will almost certainly overexpose shots made in bright daylight and underexpose when the light is low.

Get out your camera and look at its lens. If yours is a simple box camera, you will find that the lens opening, or diaphragm, has two possible settings, one for average shots and one for use when the light is very brilliant. In certain other camera diaphragm settings are arbitrarily numbered from 1 to 4, giving you that many opportunities to adapt your snapshotting to light conditions.

The best known system of diaphragm control is the "f" system—used on more advanced cameras. In this system "f" represents the ratio between the lens opening and the distance from the lens to the film. When some one says that he took a picture at f11, he means that his lens was adjusted so that its opening was 1/11th of the lens-film distance.

An outbreak of pale western cutworms reaching proportions of economic severity in Western Canada in 1933 was forecast with completion of annual surveys by officers of the entomological branch of the Dominion department of agriculture.

Prospects are the outbreak will be over a considerably wider area than in 1931 with the general zone embracing the country from Indian Head, Sask., west to within 20 miles of Calgary and south to the international border. Extent of probable loss through the pests depends to a large degree upon the rainfall in the spring during the growing period of the crop.

Farms within 10 miles of Medicine Hat and Saskatoon within 20 miles of Chamberlain and Hazenmore and within a roughly-shaped oval between Kenaston, Sask., on the west and Cavendish, Alta., on the east, and south from Higgan almost to Swift Current will require special attention against the plague. Farms within 10 miles of Cowley, Alta., and within 20 miles of a line from Rhineland through Drumheller to Aene and similarly along a line from Coult to Champion, Alta., will also be heavily infested.

The cutworm attacks wheat and other grains during the early part of the growing season and frequently devastates a crop in a heavily infested field. Precautions against loss are based upon a knowledge of the habits of the pest and aim at keeping the land to be cropped free from eggs. This is accomplished by planting land which has not been disturbed during the previous year between August 1 and September 15, by any activity which would break the surface soil crust.

Busiest Doctor In World

Said To Be Chief Medical Officer Of London County Council

Much to the gratification of his many friends, Sir Frederick Roy, M.D., Chief Medical Officer of the London County Council, is well on the road to recovery from a leg injury which kept him indoors for two months. Notwithstanding his illness he has continued to watch over his vast department, which comprises 46,000 beds, hundreds of doctors, and 10,000 nurses several L.C.C. hospitals contain more than 1,000 beds. The reorganizing of these institutions when taken over by the L.C.C. from the Guardians in 1932, was a tremendous piece of work, which Sir Frederick performed with great ability and success. The Medical Officer is also responsible for the medical examination of school children. Sir Frederick, therefore, perhaps, the busiest doctor in the world, but bears his manifold responsibilities with much equanimity and is deservedly popular with his huge staff.

Why Go To College?

Answer Depends On Whether Education Is Really Desired

The question whether in these days it is worth while to go to college cannot be answered in any general way. It depends entirely upon the young man or young woman concerned. If the idea of going to college is a good time enjoy social activities, indulge in athletics and at some time emerge with a degree, then by all means stay away. The universities have been tightening up on this type of student for some time past and are going to tighten up even more before this year. Social parasites will be given no welcome, the university is not for them. There is but one legitimate reason for going to college and that is to secure the training and discipline that a college can give. As for the college it has no time to waste its efforts on the people who are not after training and discipline.

Typist: "Do you know what time I have to get up to be here to see you?" Boss: "No. Why not get here by one and find out?"

Made fur seals keep watch over their harem from April to July, without food, drink or rest.

Doings Of Our Neighbors.

At Olds: Arrangements are well advanced for the 24th birthday celebrations of the Olds School of Agriculture on November 13 and 14. A banquet will be held on the 13th, while on the 14th a public gathering will be held, with Premier Ridd, Dr. Wallace, president of the University of Alberta, and Hon. Duncan Marshall, minister of agriculture for Ontario, as speakers.

Walter Dunkley and Wylie Thompson of the Olds Dairy Calf Club will represent Alberta at the royal winter fair at Toronto.

At Innisfail: A. A. Stonehouse, prominent farmer of the Pine Lake district, was chosen as Conservative candidate for the Innisfail constituency of the provincial legislature at a convention held at Innisfail last Thursday.

A meeting of the Innisfail-Bowden Mutual Telephone Company approved of the action of the provisional director in completing the purchase from the Alberta Government of the telephone lines tributary to Innisfail and Bowden, at a purchase price of \$4,750.00.

The town council has erected signs prohibiting the parking of oil trucks within the town limits.

At Crossfield: Trampled by a horse, one of a team owned by a neighbor, Saturday morning Oct. 20, James Smart, three-year-old son of Mr. and Mrs. C. C. Smart, suffered injuries from which he died in the Calgary General Hospital the following Monday morning. The little lad had been playing close to the team, said to be a quiet couple of horses, and one of them inflicting severe injuries to the child's abdomen.

Westcott Notes.

The October meeting of the W.I. was held at the home of Mrs. Ed. Klunk, with fifteen members and one visitor present. The meeting opened with "Land of the Maple," followed by the Creed. The final arrangements were made for the bazaar and program to be held on November 16. A paper on the League of Nations was read by Mrs. Webster, who described very clearly the Saar Valley situation. It was the unanimous wish of the meeting that flowers be sent to a sick member. A short entertainment program was then given, comprising a recitation by Margaret Klunk, piano selection by Mrs. J. Hughes, and a vocal solo by Mrs. R. MacFarlane. Lunch was served by the hostess and the meeting adjourned.

Burnside Notes.

Miss Sadie McLean spent the weekend in the city.

Mr. George Metz and Earl Dedels were Monday visitors to Calgary.

Mr. and Mrs. Eckel spent Sunday evening with Sam McAllister.

Mrs. Kilcott is visiting at the home of Mr. George Metz.

Born: September 28 at Fort St. John, to Mr. and Mrs. Harold Metz, a son.

Miss Della Coyne of Carstairs spent a few days the first of the week with her sister Margaret at Mrs. N. Eckel's.

Messrs. G. Kirk and Kenneth Burns commence this week to take violin lessons from Mr. C. T. Stevens at Olds.

Miss Dorothy Cipperley spent the weekend at her home here and returned to Calgary with her father, who will take medical treatment there.

Mr. Percy Saunders spent Thursday with relatives at Munson. His nephew, Mr. Frank Doyle, returned to his home at Munson the same day.

Mr. and Mrs. Charles Welch of Calgary spent Sunday with Mr. and Mrs. A. E. Thompson, being accompanied on their return by Mr. Thompson and Harold, who will spend a few days in the city.

**Big Game Season
Opened Wednesday**

The season for big game opened yesterday, and the beginning of the week saw a number of parties trekking to the backwoods in order to be on the spot when the opening day arrived.

From reports received both deer and moose are again plentiful

Bert Fisher, Frank Heslop, Jack Topley and Alex Moore were the first party to leave. Leaving last Saturday for the head waters of the Red Deer they will try their luck or skill on mountain sheep before the deer and moose season opens. These boys make this their annual vacation and generally bring back their quota.

Stewart Tighe, Harold Tighe, Sam Thompson and Ken McCoy left Monday for the Clearwater country. Moose is the meat for the Tighes, but they don't pass up a deer if they see one.

Irwin Klein and Dick Ladd hiked for the woods beyond Sundre, and Irwin says he is going to bring back some cranberries to flavor the meat.

A. G. Stuter left Monday for a hunting trip to Rocky Mt. House and Nording. A. G. will go after the birds the first part of the week, and try to land a deer before coming home.

WEDDINGS**THOMPSON—SPIES.**

A pretty wedding was solemnized at the M.B.C. Church on Friday last, when Miss Annie Spies, daughter of Mr. and Mr. F. S. Spies, of Didsbury became the bride of Mr. Percy W. Thompson, also of Didsbury.

The bride entered the church to the strains of the wedding march played by Miss Mel Shantz, and was given away in marriage by her brother, Mr. Ruben Spies. The bride was attired in a gown of white crepe silk and carried a bouquet of pink roses and white carnations. She was attended by her sister Miss Mildred Spies, who wore a gown of pink silk crepe and carried a bouquet of yellow and white chrysanthemums.

The groom was supported by Mr. Clare Snyder.

The ceremony was performed by Rev. C. J. Hallman assisted by Rev. F. Vincett.

After the ceremony a reception was held at the home of the bride's parents where guests were served with a dainty buffet lunch. Many useful and beautiful gifts were offered by the happy couple and after receiving the congratulation of their many friends they left by train for Calgary to spend a brief honeymoon.

Mr. and Mr. Thompson will take up their residence in Didsbury.

Melvin Notes

Mr. and Mrs. Emil Krebs and family spent the weekend in Calgary.

The Misses Edith and May and Lyle Good spent Sunday with the Johnston family.

Mr. and Mrs. Harold Biss are visiting the former's mother west of Bowden for a few days.

Mr. and Mrs. Glen Johnston of Cremona spent the weekend visiting their many friends in the district.

A number from this district visited the Folkman home at Government on Tuesday evening, when a most enjoyable social time was spent.

Mrs. Geo. Younge, Miss Cora O'Brien and Sidney O'Brien motored to Clive on Saturday, where they spent the day visiting Mr. and Mrs. Barnhill.

Mr. and Mrs. Peter Johnston, Harold, Ruth, Maud and Laura, all spent the weekend at Thrice Hills, the guests of Mr. and Mrs. Ed. Vetter.

Mr. and Mrs. C. G. Carlson, Miss Gladys Carlson, Messrs. F. Day, C. Radford and Norval Honey were guests of Mr. and Mrs. Landeen on Sunday, the occasion being Mr. Landeen's birthday.

There is a very amusing story making the rounds of the district about a party of Melvinites who visited the school on Saturday and after carefully locking their belongings in the car went away, leaving the window open, which resulted in the goods going a vanishing trick.

**Schoolchildren's Outing
to Calgary.**

Miss Hazel Ray, teacher at the Melvin school, is to be congratulated on her enterprise in arranging for a trip to Calgary for her pupils.

Friday morning saw seven carloads of happy kiddies on their way. The first stop was the aerodrome to see the flying machines; from there to St. George's Island, where the kiddies had a big time looking over the animals in the zoo. Here a picnic lunch was served.

In the afternoon they were shown over the Burns packing plant, and the balance of the day was spent at the Calgary museum.

Those who supplied cars to make the outing possible were: Mr. Aug. Krebs, Mrs. B. J. Johnston, Orin Swingle, Mr. H. Parrant, Mr. E. Landeen, Mr. Ray and Miss Ray, Mr. Ross Youngs and Mr. Clarence Larsen drove two of the cars.

Miss Ray wishes to thank all those who helped to make the outing such a success.

Public Warning.

The Trustees of the M. B. C. Church wish to hereby warn such persons who use the Church Sheds during the week to feed or shelter their horses: to be more careful of fires in the future; or these privately-owned church sheds will be closed to the general public.

On Friday, October 19, a smoldering fire was discovered and extinguished before any damage was done. However, if it had not been discovered in time a very devastating fire might have been the result as it was a very windy day.

**400th Celebration
of Luther's Translation**

A celebration commemorating the 400th anniversary of Dr. Martin Luther's translation of the Bible will be held Sunday, November 4 in the Lutheran Churches at Westcott and Didsbury. The evening service at Didsbury will not take place. A joint service, however, under the auspices of Mount Calvary, Jehovah and Immanuel Lutheran Churches, Calgary, will be held Sunday evening at 7:30 in Paget Hall, 218 7th Ave. E., Calgary. Professor Scherermann, President of the Concordia College, Edmonton, will deliver the address. The public are heartily invited.

OGDEN'S "Cuts well that Smokes Well"

OGDEN'S
CUT PLUG

Of particular interest to students of Canadian history, the Dominion bureau of statistics has issued a report giving a chronological list of cruelties taken in Canada.

WORLD HAPPENINGS BRIEFLY TOLD

Lord Baden Powell is sailing on a world inspection tour of the Boy Scout movement, of which he was the founder. The tour will end in Canada and will last to months.

Air service connecting Algeria and French west and equatorial Africa was established when the first mail plane, which left Algiers, Sept. 7, returned after a successful flight. The other terminus is Brazzaville.

Dissolution of the York County Children's Aid Society board, of which former Premier G. S. Henry was chairman was announced by Hon. David Croft, Ontario minister of public welfare.

Boycott of all firms paying unfair wages or forcing their employees to work under unsatisfactory conditions was urged by J. P. Marsh, Ontario deputy minister of labor, in an address to the Toronto Local Council of Women.

Adoption of a national health insurance scheme will be urged at the proposed Dominion provincial conference at Ottawa this fall by Hon. G. M. Wear, British Columbia provincial secretary, in a brief presented on behalf of the Canadian Medical Association.

To mark the centenary of South Australia state in 1836, the government has received a gift of \$20,000 towards completion of the new parliament houses. The donor is Sir Langdon Baxton, proprietor of the Adelaide Advertiser, and one of Australia's foremost industrialists and philanthropists.

Little Journeys In Science

CARBON MONOXIDE

(By Gordon H. Guest, M.A.)

Frequently we read of accidents caused by the escape of carbon monoxide gas from the exhaust of motor engines or from furnace pipes. Produced by the burning of carbon, in coal gas, and in motor exhausts this gas, which is also known as carbonic oxide, is very poisonous, and is doubly dangerous because it has almost no odor, and overcomes victims so quickly that they rarely have time to escape from the fumes.

The deadliness of the gas lies in its action on the blood, where it displaces the oxygen in the haemoglobin, through which it reaches the body tissues. It is identified in the body because of the bright red color which it gives to the blood.

It is estimated that one volume of carbon monoxide in eight hundred volumes of air is fatal when breathed for half an hour, while much smaller quantities are known to produce unpleasant effects if inhaled for any length of time. Small cars travelling at fifteen miles per hour are said to give off forty-one cubic feet of carbon monoxide per hour, while a large car gives off one hundred and eighty-four cubic feet of the gas in one hour. Thus in large cities the air continually contains small amounts of the gas, and considerable attention has been given in some centres to purifying the air, particularly in tunnels and underground railways. This is done by passing the air over a substance known as hepatic, which changes carbon monoxide into harmless carbon dioxide.

Mice and birds are particularly sensitive to carbon monoxide and sometimes rescue crews in mines take canaries in cages with them into the mines following an explosion in which this gas is believed to have been released.

Buttermilk has the same food value as skim milk.

Mysterious Bomb

New United States Bomb Relieved To As The Bouncing Betty

A mysterious bomb called the "Bouncing Betty" bounced into the United States senate munitions probe at Washington, and bounced right out again.

Informers that it is a new type of bomb being developed by the war department halted references to it almost as soon as it was mentioned.

John W. Young, president of Federal Laboratories, Inc., in a letter quoting prices on gases and bombs requested by a Cuban government representative, said to his South American agent:

"I presume the new bomb he is referring to is the 'Bouncing Betty.' If that is the case, I am sure he cannot purchase it."

"What is the 'Bouncing Betty'?" queried a senator.

"I understand it is a bomb now in the hands of the war department," Young answered. "Instantly the subject was dropped."

International Understanding

News An Important Factor In Directing Destinies Of Nations

News is an international force, Dean Carl W. Adelman, of the Columbia University School of Journalism declared, is a potent factor in directing the destinies of nations.

Because of the growing importance of international journalism, Dean Adelman proposed that it be seriously studied in educational institutions of Great Britain, France and the United States, "which should take the lead in making international news not only the province of public opinion but the province of policy."

Dean Adelman suggested a new prize in international journalism be awarded to a press association, newspaper or individual correspondent "making the greatest contribution annually to international understanding," and that to award this prize properly, a clearing house be created "so that full information of the press activities of the world might be available."

Poor Opinion Of Women

Twelve-Year-Old Jackie Cooper Has Had Bitter Experience

Jackie Cooper, young motion picture actor, arrived in New York recently to fill a theatre engagement and said some bitter things about women. Jack is just 12 years old.

"Women are just suckers for your money," he declared, and then declared himself for celibacy.

"I don't think I'll ever have anything to do with them," he said.

Would Segregate All Young Law Offenders

Church Of England Spent Vexatious Action By Parliament

Canada should segregate her youthful criminal offenders during both trial and prison terms, the synod of the Church of England decided.

On motion of Magistrate J. E. Jones, Toronto, a resolution was passed urging the parliament of Canada to provide separate trials for boys between 16 and 21 years of age and separate penal institutions, similar to the borstal system in England, where possible.

Most Rev. J. C. Epper, archbishop of Ottawa, seconded the resolution and undertook to bring the matter before the government.

Up to the age of 16, Magistrate Jones explained, the juvenile courts were available, but between that age and 21 there was no special provision. He pointed out the dangers to young offenders of contamination with older and more hardened criminals.

The synod also approved another resolution by Mr. Jones, urging provincial governments to implement Dominion government legislation respecting probation where it had not already been done.

It was certainly the younger offenders to whom attention should be directed, said Rt. Rev. A. Sovereign, bishop of Athabasca. "There are few grey-haired men in our penitentiaries now," he declared. "They are boys, many of them about 18 years old."

"What is a maledole?" asked the teacher.

"A maledole," said John, "is something so small that it can't be seen, even through a microscope."

Largest Flag In World

A society has been formed to insist a Japanese national flag, which, it is claimed, will be the largest in the world, on the summit of Fujiyama, the sacred mountain of Japan. The flag will be 80 feet long and 56 feet wide, and when hoisted, will be visible from a great distance.

Play: Any kind of violent exercise that you would call wage slavery if you got \$3 a day for doing it.

It flushes off stains without harming enamel or plumbing . . .

HOW to get rid of those ugly toilet-bowl stains? It's easy—with Gillett's Pure Flake Lye. Once a week pour this powerful cleanser and disinfectant—full strength—down toilet bowls and drains. It flushes off stains without scrubbing. Cannot harm enamel or plumbing. Kills germs and destroys all odors as it cleans!

Never dissolve lye in hot water. The action of the hot liquid heats the water.

FREE BOOKLET—Send for new revised edition of the Gillett's Lye Booklet. Gives full directions for cleansing sink drains and toilet bowls, tells how to shorten disease of other cleaning tasks. Also contains full directions for soap making, thorough cleaning, and other uses on the farm. Write to Standard Brands Limited, Fraser Avenue and Liberty Street, Toronto, Ontario.

Wintering Brood Sows.

Although it may sound rather unorthodox, it is nevertheless a fact that the success of a sow breeder is largely determined before the birth of his pigs. In the comfort, feeding and housing of his brood sows from before breeding until farrowing.

The winter ration fed to the sows at the Lacombe experimental station is composed of four parts ground oats and one part ground barley, balanced with skim-milk or buttermilk. If these are not available, kaffir is added at the rate of 3 to 5 per cent. of the meal ration. Alfalfa, sweet clover or greenfeed, fed from racks, provides roughage which is very beneficial to brood sows.

A mineral mixture of 70-lbs. slaked lime, 20-lbs. salt, 3-lbs. ground limestone and 1-lb. sulphur, is kept before the sows at all times.

Thieves Get \$400 From Olds Store

More than \$400 in cash and cheques was the loot obtained from the Jenkins' Groceries at Olds when the safe was blown and money stolen Sunday (one early Sunday morning). The thieves gained entrance through a side window, on which they applied sufficient leverage to release the screws holding the night latch on the inside of the window frame.

G. H. Burke, local manager of the store, left the building at 11:45 on Saturday night. He had listed the cash, placed it with the accounts in the safe as usual and turned on the night light before leaving. The robbery was discovered by Dan O'Connell, local employee of the Jenkins' Groceries, but not until after 12 noon Sunday, when he entered the store. He immediately got in touch with police.

The job is said by authorities to have been done by a professional safecracker, aided by an accomplice. The safe was moved from the office to the warehouse at the back of the store with a crowbar. When it was found Sunday it was lying on its back with the door swung open. A sufficient amount of nitro-glycerine had been used to blow the bolts out of place, but the door was still on its hinges. A liberal amount of soap scalded the cracks around the door, prints on which indicate that it was packed in with feet wearing new rubbers. Most of the papers and account books in the safe were badly jammed and torn by the impact, and the wooden part of the interior was reduced to match-wood. Bales of wool and flour found strewn over the warehouse floor had apparently been piled on the safe to deaden the noise of the explosion. The crowbar used by the thieves was the only part of their equipment left behind.

Constable Doldin of the local R.C.M.P., and Corporal Harrison of Calgary are investigating.

—Calgary Herald

U.S. Will Buy Surplus Feed

A market for Alberta's surplus feed has been found in the United States, where it will be sold at a fixed price. Hon. George Hoadley, Alberta minister of health, stated to Toronto newspapermen on his arrival from Washington, Saturday.

He is accompanied by Premier R. B. Bennett and Hon. Robert Weir, minister of agriculture, at Ottawa.
